- a timeline for completion,
- contributions that your organization is making to the project, including cash and/or in-kind,
- other funding sources,
- who will benefit from this project.

V. **Disclaimer**

The information contained in this application is for the purpose of obtaining funding from the LaGrange County REMC EnviroWatts® Fund, on behalf of the undersigned. The undersigned understands that the information provided herein is used in deciding grant funding, and represents and warrants that the information provided is true and complete and that the LaGrange County REMC Board of Directors may consider this statement as continuing to be true and correct until a written notice of a change is provided. The LaGrange County REMC Board is authorized to make all inquiries they deem necessary to verify the accuracy of the statements made herein.

Signature of Organization's Representative

Date

VI. **Submittal**

EnviroWatts® Fund requests for funding are reviewed annually. Please submit this application along with the requested documents to our office, LaGrange County REMC, 1995 E US Highway 20, LaGrange, IN 46761 before end of business at 4:30 p.m. on the first Monday of March.

Applicants:

This grant application is for funding from the LaGrange County REMC EnviroWatt® Fund. Applications will be accepted and reviewed annually by the LaGrange County REMC Board of Directors at their board meeting in March.

EnviroWatts® Project Guidelines

Funding from the EnviroWatts® Fund is available for non-profit, service organizations for environmentally friendly projects that will benefit people in LaGrange County. These Project Guidelines have been created to assist those who are submitting an application for funding by identifying those environmental projects more likely to be considered acceptable. Even though a project might seem to fit well within these Guidelines, the REMC Board reserves the right to fund or the right not to fund any particular project. The REMC Board is limited by monies available in the fund. This may result in only a few projects being funded out of a number of well-deserving projects.

Types of projects that might be funded by EnviroWatts® include:

- Develop renewable energy sources and resources
- Projects that reduce energy use
- Improve water quality of rivers, streams and underground aquifers
- Improve air quality of local area
- Enhance species diversity
- Create or restore habitat for wildlife
- Plant trees or native plants
- Encourage recycling
- Projects that educate individuals about safe disposal of waste, especially hazardous/chemical waste
- Educate the public on local environmental issues

Applicants will be advised of the decision of the Board regarding their funding in early April. Recipients will be asked to pick up their checks at our office at an agreed time. A press release may be printed in the Electric Consumer, area newspapers, and issued to local radio stations, as desired by the REMC to promote the EnviroWatts® program.

If you have any questions concerning this grant application, please contact the LaGrange County REMC office at 877-463-7165.
